Balancing (protection)

- **X** - 10+ (not 12+)

Defensive Carding

Use your head first. Signals are a last resort.

Signal Selection

Partner need: Ace lead → count. Dummy threatens → count. Shift question → suit preference. Default → attitude. Trumps → suit preference (TSP). **Card cost:** Cheapest card that conveys the message. Never signal with a trick. **Adversarial cost:** FREE signal = declarer already knows (bid suit count, obvious shift, overcalled suit). COSTLY signal = declarer gains info (unbid suit count, ambiguous attitude, critical guess). Prefer free. Costly only when defensive gain outweighs declarer gain.

Attitude

- **Low** - encourage
- **High** - discourage

Obvious Shift (trick 1): Trick 1: attitude refers to the obvious shift suit (dummy's shortest side suit, ≤1 honor, excluding trump/led/declarer's suits; vs NT = shortest). Encourage = continue (no shift tolerance). Discourage = wants the obvious shift. FREE signal.

Smith Echo (vs NT)

When: vs NT only, trick 2+, following to declarer's suit

- **High** - Don't like it (switch)
- **Low** - Like the opening lead suit (continue)

Adversarial cost: FREE

Exception: *Count overrides when dummy has entryless long suit*

Trump Signals

- **High-low** - Prefer higher-ranking side suit (TSP)
- **Low-high** - Prefer lower-ranking side suit (TSP)

Caution: *Never signal with potential trump tricks (Qxx)*

Italian Style (on discards)

- **Odd card** - Interest in discarded suit
- **Low even** - Interest in lower suit
- **High even** - Interest in higher suit

Discard Discipline

Never signal with potential tricks. Cheapest FREE card (SFS-aware).

Opening Leads

- **Length** - 3rd or 5th highest
- **Sequences** - Top of sequence (AKx→K, KQx→K, QJx→Q, JTx→J, T9x→T)
- **AK** - K lead from AK; A asks for count
- **xx** - Higher (prefer even-ranked card for even parity signal)
- **xxx** - Lowest (3rd highest; prefer odd-ranked for odd parity signal)
- **xxxx** - 2nd highest then low (prefer even-ranked for even parity signal)
- **With J** - Lead 4th highest (KJ732→3)

Vs suits: Prefer sequences; avoid unsupported honours **Vs NT:** Longest suit unless bidding says opponents hold it

---

Dummy Analysis

Classify dummy's suits → reconstruct declarer from bidding → choose defence line

- **RUNNING THREAT** - 5+ cards, 3+ honours (AKQxx, KQJ9x) - RACE to cash or CUT entries
- **ESTABLISHABLE SOURCE** - 4+ cards, 1-2 honours (KJ84, Q10753) - HOLD UP, attack entries
- **ATTACK TARGET** - ≤3 cards or long without honours (73, xxx) - safe to LEAD
- **ENTRY SUIT** - Contains A or K as side entry - attack to strand long suit
- **TRUMP RUFFING** - Short side suit + trumps = lead trumps to CUT RUFFS

- **1 race** - Running threat + entries → cash winners NOW
- **2 entries** - Establishable source + limited entries → attack entries
- **3 passive** - Flat dummy, no threats → don't break new suits
- **4 cut ruffs** - Singleton + trumps → lead trumps
- **5 force** - You have 4+ trumps → force declarer to ruff, shorten their trumps

Bidding clues:

- 1NT-3NT: Balanced ~25 HCP, no long suit. Lead longest, then passive.
- 1M-2M-4M: Dummy 6-9. Check for singleton. Flat = passive.
- 1M-3M-4M: Dummy 10-12, 4+ trumps. More entries. Be active.
- Weak two-4M: Shape but no tricks. Cash fast.
